

Grip bar 135°

- **Lifetime Warranty**
- **Heavy-duty bar**
- **Available in straight or right angle bars**

The Grip grab bars allow you to hold on or catch yourself if you fall in any room of the house. Our range of Grip grab bars, thanks to its plastic material design, is specially designed for installation in bathrooms, WCs, etc. The ergonomic shape of the bar is easier to grip. Sturdy construction combining a stainless steel inner tube and a plastic-coated material induction which is very pleasant to the hand. Impeccable finish thanks to the fixing covers. Available in white or with a blue part for the visually impaired. Screws not included.

Thanks to its 135° angle, this special support allows you to get up from a bathtub or toilet bowl more easily.

Dimensions: 45 x 45 cm. Diameter 32 mm. Distance from the wall 4 cm.

Maximum authorised weight 125 kg.
