- Green - 813092

- **Cup with extra wide handle**
- **High impact material**
- **Large capacity**
- **Dishwasher and microwave safe**

Created by Identités, the Ergo cup is made of Copolyester Tritan, making it virtually unbreakable. It is favoured by occupational therapists because of its ideal characteristics for hemiplegic people and weak elderly people :

☐ a virtually unbreakable material: the Ergo cup is made from copolyester tritan. This material guarantees unfailing impact resistance.

Drops have no effect, even on tiles.

☐ An extra-wide handle for use by large hands. Internal internal passage: 8.2 cm.

☐ Large-capacity mug graduated up to 25 cl, maximum capacity approx. 28 cl.

☐ Ergonomic grip thanks to its crenellated shape. Fingers grip naturally.

☐ A very stable cup: the handle allows the cup to be stabilised on a table.

Dishwasher and microwave safe.

Choice of 5 colours: clear, neon blue, neon green, neon red and orange.

Diameter: bottom 5.5 cm, top 10 cm.

Height: 10 cm.

[Ergo Cup](#) not included.

Pack Color 20 ergo cups available including 4 sets of 5 blue, green, red and orange with 20 lids.
