

Refillable water mister

- Refreshes in all circumstances with tap water
- To be filled with tap water
- Pump to generate pressure

Our mister refreshes you in all circumstances. The mister allows you to effectively regulate the temperature of the elderly without having to buy industrial misters. Very ecological, you fill it with tap water and, by simply pumping it, you turn it into a refreshing mist. Works with pressure, without environmentally harmful gases or batteries.

Capacity 15 cl.
