

Hot Cold compress

- Hot or cold depending on the desired effect (pain treatment or muscle relaxation)
- Highly resistant woven cover
- Several models to choose from

Our Hot Cold compress is ideal for use in thermotherapy or cryotherapy. Cooled in the freezer, it remains malleable and can be used to treat pain. Warmed up in a vat, in a bain-marie or in the microwave, it relaxes muscles or prepares for exercise.

Our Hot Cold compress is composed of a non-toxic gel with an excellent inertia performance and an ultra-resistant woven reinforced PVC envelope.

Supplied with a soft and washable microfibre cover for direct placement on the skin.

Sizes available:

- 23 x 13 cm
- 30 x 18 cm
- 40 x 30 cm
- Tri-section
