

Vegelya lumbar cushion

- 855103

Our Végelya lumbar cushion is very pleasant for a good lumbar support in a sitting position. Place it on the back of your seat and enjoy the exceptional support of our unique foam. Equipped with an elastic back strap to attach it to all chair or armchair backs.

Our comfort range provides you with exceptional comfort thanks to high-end components. The Vegelya foam used is a visco-elastic memory foam of very high resilience enriched with activated bamboo carbon.

The benefits of memory foam :

It allows you to float in the pillow or cushion by faithfully following the shape of your body. This high resilience foam gives you exceptional comfort by avoiding pressure points on your skin, while allowing air to circulate to keep it fresh.

The benefits of activated bamboo charcoal :

Bamboo has recognised temperature-regulating properties, it helps to limit overheating and absorb moisture from your foam. The activated carbon prevents bacteria and dust mites from settling inside your cushion.

Cover in thick velvet. Anthracite grey colour. Machine washable at 40°.

Height 29 cm x width 34 cm x thickness 9.5 cm max.
