IDENTITÉS

Identités Ergo transfer board

- 815066

- **Transfer board made of highly resistant plastic material**
- **Exceptional glide**

The Ergo Identités transfer board has been developed to make transfers safer and easier. Its curved shape makes it easier to turn around obstacles. It is equipped with two notches for attaching wheelchair tubes.
The underside of this transfer device is reinforced to suit heavier people. The two ends on the underside are molded with a non-slip material for transferring from smooth surfaces.
Highly-resistant plasticized material. Exceptional glide.
Blue-grey color.

Weight : 1.9 kg.

Dimensions : Length 76 x width 24.5 x thickness 1.2 cm.

Maximum user weight : 190 kg.
