

Ergo Transfer Board

- 815066

- **Transfer board made of heavy-duty plastic material**
- **Exceptional glide**

Our Ergo Identity Transfer Board has been developed to make transfers safer and easier. Its curved shape makes it easier to turn around obstacles. It has two cut-outs for hanging wheelchair tubes. The underside is reinforced to suit heavier people. The 2 ends on the underside are overmoulded with a non-slip material allowing transfer from smooth surfaces. Heavy duty plastic coated material. Exceptional glide. Blue-grey colour.

Weight 1.9 kg.

Dimensions: Length 76 x width 24.5 x thickness 1.2 cm.

Maximum weight 190 kg.
