

Transfer and turning undersheet

- **French manufacture**

The transfer undersheet allows the patient to be lifted and turned in bed. By limiting the effort, you can give the patient more serene care. Waterproof and absorbent fabric with an innovative 4-layer hydrophobic structure: 100% polyester quilted top with a polyurethane film and a polyester side to slide the patient on the bed. Equipped with 4 handles. Suitable for patients suffering from incontinence. Machine washable at 40°C.

Dimensions: 75 x 85 cm.
