Resist bed support

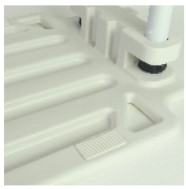

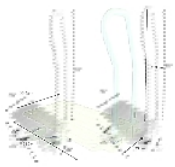

- 823060

- **Reversible to fit all types of bed bases**
- **Secured by 2 straps with buckles**

The Resist bed support provides support for turning and getting out of bed with ease. It also helps ensure a safe night's sleep by preventing falls. The support consists of a wide base made of very thin plastic that rests on the bed frame and under the mattress. The base can be reversed to fit both upholstered and slatted bed frames. It is secured by two 4-metre straps that wrap around the bed.

Height of the support from the base of the mattress : 51.5 cm.
Width : 25 cm.
Base : 61.5 x 33.5 cm.

Do not install this product on profiling or healthcare beds.
