

Resist bedside support

- 823060

- Reversible to adapt to all types of bed bases
- Secured by 2 buckle straps

Our Resist bed support makes it easier to get out of bed. It also makes sleeping safer by preventing falls. The support consists of a wide base made of very thin plastic material that is placed on the bed base and under the mattress. This base can be reversed to adapt perfectly to the bed base or slatted bed bases. It is secured by 2 straps of 4 metres each around the bed.

Height of the support in relation to the mattress base: 51.5 cm.

Width 25 cm.

Base 61.5 x 33.5 cm.
