PositPro decubitus cushion

- Aubergine - 829033.A

- Grey - 829033

- **S-shaped cushion that supports and secures the patient's shoulders, hips and back in a lying position**
- **Material based on the latest innovations**
- **100% Made in France**

The PositPro cushions feature Technigel fibre, which provides exceptional comfort for patients. It exceeds the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It allows for optimal positioning to relieve pressure points.
They come with a removable Steritex cover, made from the most resistant polyurethane on the market. Innovative, ventilated and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in communal areas and suitable for the most stringent requirements in environments with a risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclaving.

Very soft and comfortable to the touch. 100% cotton fibre cover.

S-shaped cushion supports and props up the patient's shoulders, hips and back in a 30° left and right lateral decubitus position when lying down. It limits the effects of friction. The cushion relieves and distributes pressure points on the patient and prevents the development of pressure sores during nursing care.
