

Balance Motor Skills Kit

- **Varied balance paths with obstacles of varying heights**
- **French manufacture**

This motricity kit is ideal for creating paths and obstacles to exercise gross motor skills in older people. You can build a 7m20 tortuous path thanks to the 24 beams and up to 4 obstacles of different heights to step over, pass under a milestone or through a hoop.

The kit includes 20 spherical $\frac{1}{2}$ beams (10 straight and 10 curved), 4 35 cm hole studs, 4 spherical $\frac{1}{2}$ milestone bases, 4 100 cm long milestones, 6 120 cm long milestones, 6 flat hoops diam. 60 cm, 8 milestone/palestone junction clamps and 2 milestone/flat hoop junction clamps.
