

Skipping motor skills kit

- 405004

- **Goal: establish a small, versatile speed course**
- **French manufacture**

You can build 2 types of courses with this kit: either a hurdle course at different heights with hoops on the ground so that you can jump or run races, or a slalom type balance course where the children will either have to do it without touching the ground, or do it by forcing them to jump through the hoops scattered on the ground.

The kit includes 1 set of 12 bricks in 4 different colours, 6 plastic markers 120 cm long and 6 flat hoops diam. 60 cm.
