

Flaxseed heating pads

- Small cushion - 835175

- The analgesic benefits of linen associated with heat
- Easy heating in the microwave
- ☐ ☐ Only small cushion available

Our heating pads are filled with flaxseeds. They are a natural painkiller and is used in the composition of pain poultices. The seeds store the heat from the microwave and slowly release it for your well-being. The heat is relaxing to soothe minor muscle aches and tensions of the day.

Microwave heating only.
100% flaxseed filling and ultra-soft 100% polyester microfibre shell.
Colour: yellow.

2 models available:
