

Special star extensors for fingers

- Firm - 831052
- Medium - 831049

- Easy to use hand re-education tool to work the extensors gently

Our star is an easy to use rehabilitation tool to work the extensors gently. The star is made entirely of washable gel. It can also be used in combined extensor and flexor rehabilitation thanks to its anatomically shaped centre.

Diameter 10 cm, thickness 4 cm.

2 resistances available:

- Medium
- Firm
