

Weenect Silver GPS Tracker

- **GPS tracking device for seniors, ideal for keeping loved ones safe**
- **Also suitable for care home use**
- **Video presentation available below**

The Weenect Silver GPS tracker stays connected in real time with other users via a smartphone app. You can connect several different trackers (for several people to be monitored) to a single smartphone, and several smartphones to a single tracker. The application allows users to locate the tracker at any time. The user is able to predefine a zone around their home and receive alerts when the tracker leaves this zone. The tracker is equipped with an SOS button that allows the user to call predefined people. Very lightweight (55g) and waterproof, it fits in your pocket, attaches to a belt or carabiner thanks to its pouch. Accuracy : 3 metres. Battery life: 4 days. No distance limit, works in 68 countries.

Three subscription options are available when registering the tracker after purchase:

- Monthly subscription: £9.99 per month: Minimum commitment of three months. Monthly payment. Unsubscription possible at any time.
- 1-year prepaid subscription: £69.99, or £5.83 per month: Payment once a year. Cancellation possible on each anniversary date.
- 3-year prepaid subscription: £149.99, or £4.16 per month: Payment once every 3 years. Cancellation possible on each anniversary date.
