

S-Ergo wheelchair

- **An ultra-comfortable, high-quality manual wheelchair for the elderly person at home**

The S-ergo manual wheelchair has some interesting features:

- A unique patented S-shaped seat prevents the patient from slipping forward and ensures greater comfort by reducing pressure points.
- A very light structure for this type of chair, only 14.2 kg fully equipped in the 41 cm version (14.5 kg for the 46 cm and 14.8 kg for the 51 cm), equipped as standard with adjustable locking third party brakes, lift-up armrests, anti-tilt wheels, soft armrests and a moulded non-slip handrail.
- A very narrow overall width, making it easier to pass through doors at +17 cm to the seat width. This folding chair is very manoeuvrable and has a reclining backrest, practical for transport, fold-away armrests, 7-inch front wheels and 24-inch spoked rear wheels.

Choice of aluminium or burgundy aluminium frame.

Available in 3 widths: 41 cm, 46 cm and 51 cm.

Frame guaranteed for 5 years.
