

Seychelles transfer wheelchair

- 826237

- **2 in 1: rollator and transfer chair**

A very practical rollator for maintaining independence and exercising while walking, but also to be carried when the person is tired. Thanks to its robust structure, the user can sit on the padded seat and rest against the backrest. The footrests can be raised. The caregiver can carry the person with the push bar and the handles can be used as armrests.

Overall dimensions: width 61 x depth 58 x height 80 to 96 cm. Weight 9.5 kg.

Seat dimensions: width 45 x depth 34 x height 56 cm. Width between handles 46 cm.

Maximum user weight : 114 kg
