

Foldable ErgoGliss transfer board

- **Radio-transparent**

Our ErgoGliss transfer board is made of a foldable core of rigid but very light polypropylene and a rotating sheet of very slippery nylon. It will allow you to carry out transfers from bed to bed without any effort and without trauma for the patient. Anti-allergenic, rot-proof, anti-bacterial and fire-rated.

Rigid polypropylene interior. Thermoplastic polyacetal handle.

Cold disinfectable nylon fabric, washable at 60°.

Dimensions : Length 170 x width 50 cm. Folds in 2 over 87 cm. Weight 2,3 kg.

Resistance 200 kg.
