

Set 3 Gripoballs

- 813239

- Ideal for travelling
- Video presentation and instructions available below

Gripoballs offer a better grip and allow the user to hold small, thin objects (cutlery, toothbrushes, pens, etc.) in the palm of their hand without having to bend their fingers too much. They are suitable for both right-handed and left-handed users. They can be easily adjusted by simply pressing between the ends of the notches, which then open like two clamps.
