

Set of 3 Gripoballs

- **Ideal for travelling**
- **Presentation and use video available below**

Gripoballs offer a better grip and help you to hold small, thin tools (cutlery, toothbrush, pen...) in the palm without having to bend your fingers too much. It is suitable for both right- and left-handed people. It can be adjusted very easily by simply pressing between the ends of its notches, which spread out like two jaws.
