- **Even easier and quicker assembly**

The Secucare access ramps in kit form make it very easy to create an inclined surface. Simply fit them together with a mallet. The kits are supplied with detailed assembly instructions. The width of the kit is 84 cm, but it is possible to extend the width of each kit by 24 cm to create a 108 cm wide kit. Resistant even to passing vehicles. UV resistant HDPE material, 95% recyclable light grey and taupe grey. 4 heights available.
