

PositPro triangular cushion

- Aubergine - 829080.A

- Grey - 829080

- Helps support the abdomen and relieve pressure on the heels and sacrum by wedging the thighs
- Material developed using the latest innovations

The PositPro cushions feature Technigel fibre, which provides exceptional comfort for patients. It exceeds the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It allows for optimal positioning to relieve pressure points.

They come with a removable Steritex cover, made from the most resistant polyurethane on the market. Innovative, ventilated and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in communal areas and suitable for the most stringent requirements in environments with a risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclaving.

Very soft and comfortable to the touch. 100% cotton fibre cover.

Triangular-shaped cushions. Supports and props up the abdomen in a 30° lateral decubitus position. Under the thighs in a semi-Fowler position at 30°: relieves pressure on the sacrum and heels. The use of this cushion relieves and distributes pressure points for the patient and prevents the development of bedsores during nursing care.
