- Taupe colour - 829081

- **Supports and wedges the upper limbs when seated or lying down**
- **Holds and wedges the head and the nape of the neck**
- **Material from the latest innovations**

Our PositPro cushions benefit from the technigel fibre, which gives unequalled comfort for the patient. It surpasses the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It provides optimal cushioning to relieve pressure on the support points. They are fitted with the Steritex removable cover, the most resistant polyurethane on the market. Innovative, breathable and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in the community and adapted to the most stringent requirements in environments at risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclave.

Very soft and comfortable to the touch. Underwrap for 100% cotton fibre.

Moon-shaped cushions. Supports and wedges the upper limbs when sitting in an armchair or lying in a semi-fowler at 30°. Holds and supports the head and neck in a supine position. The use of this cushion relieves and distributes the patient's pressure points and prevents the development of pressure sores during the nursing phases.

Dimensions: 78 x 35 cm.
