- Grey - 829081

- **Supports and secures the upper limbs in a seated or lying position**
- **Supports and secures the head and neck**
- **Material based on the latest innovations**

The PositPro cushions feature Technigel fibre, which provides exceptional comfort for patients. It exceeds the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It allows for optimal positioning to relieve pressure points.

They come with a removable Steritex cover, made from the most resistant polyurethane on the market. Innovative, ventilated and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in communal areas and suitable for the most stringent requirements in environments with a risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclaving.

Very soft and comfortable to the touch. 100% cotton fibre cover.

Moon-shaped cushions. Supports and positions the upper limbs when seated in a chair or lying in a semi-Fowler position at 30°. Supports and positions the head and neck in a supine position. The use of this cushion relieves and distributes pressure points on the patient and prevents the development of pressure sores during nursing care.

Dimensions : 78 x 35 cm.
