

Free-standing jar opener

- **One utensil for all your jars**
- **Removable anti-slip cones for use as bottle openers**

Suitable for people with arthritis or grip difficulties, our jar opener is simply placed on the worktop and helps you to open jars or jam jars with one hand. It is composed of 3 cones of different sizes to insert bottles and jars of different diameters. These cones are lined with anti-slip to prevent them from turning when you open them. To be combined with the Dycem jar opener.

Dimensions : Length. 24 x width. 15 x height. 8.5 cm.
