Our Vegelya Premium bolsters allow very comfortable head positioning due to their memory foam with exceptional flexibility and resilience. Like all Vegelya Premium models, our bolsters benefit from foam enriched with activated bamboo charcoal and castor oil. The foam is also perforated for optimal air circulation, ensuring that your head remains cool.

The bamboo viscose cover is treated with Greenfirst's 100% natural essential oils for anti-mite and anti-mosquito protection.

It is also coated with Aloe Vera to provide extra softness.
