Happy Legs Active/Passive Trainer

- 535004
(On restock - Available from 03/12/2026)

- **Presentation and use video available below**

This electric device makes you simultaneous use of the legs and arms. It is complete because it can be used for assisted pedalling or manual use forwards or backwards.
Independent use of arms and legs is very practical.
Control panel with 4 simultaneous displays. 12 speed levels.
The manual function can be used without switching on the power. Can be connected to the mains.

DO NOT use the tool within fitness centers, private clubs, hotels or areas for the collective use of training equipment. This tool is not designed for intensive use in professional activities or for medical or rehabilitation purposes.

Dimensions: width 63 x depth 73 x height. 100 cm high.

Weight 16 kg.
