

Madagascar modular grab bar

- 815150

- **Fix several bars together to determine the desired size and angle**

The Madagascar support bar allows users to create support railings of any length. The advantage is that it can be used to create support with custom angles to fit any surface. Ergonomic grip.

Bar dimensions : Length: 35 cm (useful length : 24 cm)
Centre-to-centre distance : 30 cm.
Wall clearance : 7.5 cm.
