- **A brand new technology at the service of your comfort**
- **Removable cover set for cleaning**

Our Zero G electric lift chair has a brand new system, zero gravity. This system tilt the entire seat backwards, which puts you in an ultra-comfortable relaxed position with far fewer pressure points. The Zero Gravity position can be used at any time. The entire chocolate microfibre part is removable. You can machine wash the microfibre fabric directly to clean it. This part is attached to the frame with velcro.

Model 2 Okin motors allows you to be in zero G position only in relax position.

Model 3 Okin motors allows you to relax even in a relax, seated or semi-seated position.

2 upholstery options: beige polyurethane imitation leather/chocolate microfibre and light grey imitation leather/charcoal grey microfibre.

Overall dimensions: width 76 x depth 98 x height. 113 cm. Weight 58 kg.
