

PROCLASSIC rise and recline armchair

- Suitable for community center use
- Waterproof upholstery, fire rated M2 or M1
- Removable armrests for easy transfer

The ProClassic chair has upholstery suitable for communal use, which can be cold disinfected and is waterproof. Its removable armrests make it easier to transfer sideways and at the same height due to its motor, which is specially designed to raise and lower the seat, leaving it horizontal. The second motor allows the ProClassic to be used like any other lifting chair: in the raised position and in the reclined position. Multi-directional wheels with brakes, deactivated in the raised position and during horizontal transfers. M2 or M1 fire rating depending on the model.

Available colours :

- Yellow/grey : M2 fire rating
- Blue/grey : M2 fire rating
- Grey : M1 fire rating
