

## BeasyGlyder Transfer Board

- **Very comfortable translational seat**
- **Ultra-lightweight design**

Our BeasyTrans transfer board is a very easy to use tool. Its use is very effortless thanks to the seat that slides along the board. Its long length and original S-shape allow for a large number of different transfers.

Dimensions : Length 102 x width 30 x thickness 2.5 cm (with seat 3.75 cm).

Weight 3 kg only.

Colour: white.

Pictures 1 and 2.

Our BeasyGlyder transfer board is a light and easy to use board. Thanks to its sliding seat, it makes transferring easier. Its simple arc shape and smaller size allow for many different transfers.

Dimensions : Length 80 x width 25,5 x thickness 1.5 cm (with seat 2.4 cm).

Weight 2 kg only.

Colour: white.

Photos 3 and 4.

Maximum supported weight 180 kg.
