

## Gripo double support bar

- 815202

This is one of the options available for the Gripo Pole, a unique support system.  
See the entire Gripo range on our website.

This option for the Gripo Pole allows users to create a support at any angle required, due to its unique fastening system. It can be positioned simultaneously and independently on the Gripo Pole. The support can be positioned horizontally or at any angle and moved around the bar. Several supports can be positioned on the same Gripo Pole.

The aluminium bar is covered with a non-slip coating that is very safe and comfortable.

Support length : 48 cm.

Tube diameter : 22 mm.
