

Gripo double support bar

- 815202

This is one of the options for the Gripo Pole, a unique support system.
Consult the entire Gripo range on our website.

This option to the Gripo Pole helps you to create a support in the angle you want, thanks to its unique fixing system. You can position the support horizontally or at the desired angle and move it around the bar. Several Gripo Poles can be positioned on the same Gripo Pole.
The aluminium bar is covered with a very safe and comfortable non-slip coating.
Length of the support 48 cm. Tube diameter 22 mm.
