- An orthosis to stabilise the joint between the wrist and thumb.
- Models according to the circumference of your hand, right or left

Orthosis incorporating an aluminium radial splint which stabilises the trapezium-metacarpal joint. Individual adjustment. Easy one-handed fitting: elastic lycra on the radial area. Velcro closure with buckles for easy adjustment. Made with Thermotexture: thermal support, elastic and extremely breathable.

Model for right- and left-handed people.
3 sizes according to wrist circumference :
- S (13-15 cm)
- M (15-18 cm)
- L (18-21 cm).

Variantes :

- S
- M
- L
