

## ID Mouv leisure wheelchair

- **Electric wheelchair, foldable and ultra-lightweight**

The ID Mouv leisure wheelchair is a motorized electric wheelchair that allows individuals to navigate easily. Due to its foldable structure, it fits easily into a car boot. It is smooth to drive and very easy to handle due to its joystick, which can be positioned on the right or left. It has comfortable cushions on the seat and backrest. The 20 cm rear wheels and 15 cm front wheels are suitable for outdoor use on roads and paths.

The joystick option for third-party or remote control is no longer included with the product.
