

PositPro abductor leg support cushion

- Aubergine - 829102.A
- Taupe colour - 829102

- **Material resulting from the latest innovations : technigel fibre and Steritex wrap.**

Our PositPro cushions benefit from the technigel fibre, which gives unequalled comfort for the patient. It surpasses the comfort performance of current polyester fibres, is lighter and, above all, has a memory effect. It provides optimal cushioning to relieve pressure on the support points. They are fitted with the Steritex removable cover, the most resistant polyurethane on the market. Innovative, breathable and waterproof coating on a bi-elastic knitted base. Ideal for decontamination in the community and adapted to the most stringent requirements in environments at risk of contamination. Its resistance to maintenance makes Steritex a product that is highly appreciated by hygiene services. Washable at 95°C. Resistant to chlorine and autoclave.

Curved cushion raises the heels to prevent pressure sore. Adapts to the morphology of the legs. Improves the blood return of heavy legs. With an abductor pad that can be positioned on velcro.

Cover with steritex zip.
Memory foam.
Dimensions: 59 x 59 cm.

Variantes :

- Aubergine
- Taupe colour
