(On restock - Available from 28/05/2025)
- 2 engines - Grey mottled fabric - 821059.GRIS

- **Smooth and linear movement**
- **New, more ergonomic remote control**
- **Choice of 1 or 2 high quality Okin motors**

The Renaissance chair is an electric chair helps you to get up smoothly with a soft and safe movement. The difference between the 1-motor and 2-motor model is that you can interact independently on the backrest and footrest with the 2 motors. The relaxed position is almost elongated. With the seat displacement system, there is very little space between the backrest and the seat in the reclining position, which guarantees optimal comfort. Armrests in PU foam density D18 hardness 70, footrest in PU foam density D24 hardness 50, seat in PU foam density D18 hardness 70 + foam spring base. Backrest in hollow polyester fibres for soft comfort.

Overall dimensions: width 84 x depth 92/173 x height. 113/86 cm.
