

Acceo bath mat

- 812086

- **The access bar can be positioned to the left or right of the step**
- **Rot-proof teak step**

The Acceo access bar combines a step and a support to facilitate access to the bath for elderly people with reduced mobility. It can be fixed to the edge of the bathtub without the need for tools, making it safe and stable.

The support can be positioned to the left or right of the step, depending on the configuration of your bathroom. Structure in epoxy-treated steel and step in rot-proof teak.

Suitable for bathtub edges between 7.5 cm minimum and 14 cm maximum.

Height 106 cm. Support section 33 cm wide. Step dimensions: width 39 x depth 28 x height 24 cm.

Maximum authorised weight 150 kg.
