(Disponible sous 30 jours)

- **Ideal for small space**
- **Foldable against a wall**

Epoxy metal structure

Anatomical shaped handrails in epoxy metal, Telescopic height adjustment system.

The star knobs (visible in the pictures) have been replaced by ratchet handles which are more robust. This system prevents unscrewing and movement of the handrails during use.

Width between handrails: 60 cm

Base width: 70 cm

Height handrail: from 69 to 100 cm

Length of 3m

Maximum weight of user: 135 kg
