IDENTITÉS

E-Foldi Lite folding scooter

- 824040

- **Ultra-lightweight at only 14 kg**
- **Not bigger than a small suitcase when folded!**
- **Lithium battery with long battery life**
- **Agile and very easy to handle in confined spaces**

The E-Foldi Lite is the lightest and most compact 3-wheel folding scooter on the market!
Due to its exceptional folding mechanism, which requires just 3 movements, the E-Foldi Lite scooter can easily be transported in the car, as well as on a plane thanks ro its compact dimensions. When folded, it can be easily transported like a carry-on suitcase, with an ingenious system of secondary wheels for sideway movements. It is equipped with a suspended seat for greater comfort.
