

E-Foldi Lite Folding Scooter

- 824040

- **Ultra-lightweight, weighs only 15 kg!**
- **No bigger than a small suitcase when folded!**
- **Lithium battery with long autonomy**
- **Nimble and very manoeuvrable, around confined spaces**

E-Foldi Lite? The lightest and most compact folding scooter on the market!

Thanks to its extremely easy folding, in only 3 movements, the E-Foldi lite scooter can easily accompany you in the car, and even on the plane.

In the folded position, it can be easily moved like a hand luggage, with an ingenious system of secondary wheels to push it transversally.

It is equipped with a suspended seat, for a better comfort of use.
