- **Detachable and disposable multi-layer fitted sheet**
- **Facilitates the work of carers**

Innovative solution for the management of infectious risk, with a time benefit for carers (1 minute compared to 10 to 15 minutes for the change of standard fitted sheet). Removal also avoids a potentially painful movement for the patient. The need for laundry is obviously eliminated. Improves patient comfort thanks to its bamboo fibre contact surface, which is 32% softer than a traditional sheet.

Model 90 x 200 cm with 5 layers.
Compatible mattress height: 25 cm.
