

EUROVIT+ Absorbent American Dressing

Sterile or non-sterile absorbent dressing, non-adherent to the wound. Closed on all four sides, with a blue mesh on the outside for optimal placement. Consists of a soft, absorbent pad, covered - inside, a cellulose veil which allows the diffusion of exudates and outside, a hydrophobic, air-permeable cellulose veil.

Available models : Non-sterile in box of 50 or sterile in box of 10.

Available dimensions : 10 x 10 cm, 10 x 20 cm, 10 x 30 cm and 15 x 20 cm.
