

Handilit safety tent

- **Ideal for keeping children safe at night**
- **Inflatable product: easy to use anywhere**

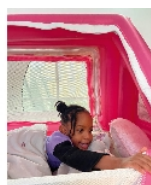

The Handilit tent takes only a few minutes to set up and is securely attached to the mattress or bed base. It gives the child optimum visibility and allows air to circulate through the netting on all 4 sides. It gives real peace of mind to family and carers.

Suitable for children with autism, encephalitis, Angelman, Smith-Magéniés, ADHD and severe sleepwalking. Can be positioned on a single or double bed. Supplied with pump and carry bag.

Maximum recommended height 1.55 m.

From the age of 3.

Dimensions: Length 190 x width 90 x height 86 cm. Light grey colour. (Pink, blue or turquoise available on request).
