

SOS alarm system

- 819238

(On restock - Available from 20/01/2026)

Alarm system consisting of a transmitter to be worn as a pendant with a call button and a receiver that plays an alert sound. The receiver, plugged into the mains, has 4 volume levels from 25 to 110 dB and 36 melodies. Range: 100 m. When the person in bed presses the button, the receiver goes off instantly. CR2032 battery supplied with transmitter.
