

Saljol Indoor rollator

- A revolutionary ultra-stable rollator
- Can be used as a toilet lift aid

The Saljol indoor rollator will be the ideal companion at home to assist with all daily activities. It is so stable that a user can lean on it whenever and wherever they want. It has two braking options : either with the handles or the central bar. It is very easy to handle and turns on the spot due to its multidirectional wheels.

It is easy to drive and handle when a user is seated on the rollator. Colour : Pearly ivory.
