

GelPro hot-cold compresses lumbar

- 835191
(On restock - Available from 19/03/2025)

- **Revolutionary stretch material!**
- **Enables efficient cold or hot treatment**

The new GelPro range offers a complete thermotherapy treatment. By placing the compress in a freezer, you can relieve minor trauma and oedema. By placing the compress in the microwave, you can soften and relieve muscular or body pains.

The compress fits closely over the area to be treated because the material used is extensible, allowing it to be adapted to most body shapes.

Blue colour.

Gel belt model, dimensions without extension 34 x 24 cm. Velcro stretch belt for a circumference (without extension) of 103.5 cm.

Compresses available in 5 other models.
