Linseed heating lumbar belt

- 835195

- **The analgesic benefits of linseed combined with heat**
- **For gentle, extended heat**
- **Reheat in the microwave**

These cushions diffuse gentle, uniform heating to contact areas of the body. The cushions are extremely flexible and adapt perfectly to all body shapes. The linseed, which is naturally analgesic, stores the heat from the microwave and releases it slowly.
The thick, ultra-comfortable anthracite grey cover is extremely gentle on the skin. The covers are sewn on the inside to prevent the linseed from spreading to only one side of the cushion. Surface cleaning only.

Waist belt featuring a 48 x 23 cm heating pad and a 50 cm lace-up waist belt on each side.
Total length 150 cm.
Weight: 730 g.

Cushions available in 4 other models depending on use.
