Pair of linseed heating slippers

- 835197

- **The analgesic benefits of linseed combined with heat**
- **For gentle, extended heat**
- **Reheat in the microwave**

These slippers provide gentle, evenly distributed heat to the feet. The slippers are flexible and adapt to the shape of your feet. The flax seeds are naturally heat-retaining and release the heat slowly. The thick, ultra-comfortable anthracite grey cover is very soft against the skin.
The slippers are sewn internally to prevent the flax seeds from spilling out. Surface cleaning only.

Pair of slippers to keep feet warm.
Sold in pairs.
Weight : 980 g.
One size.
